These are the original “homestead” and land grants in the area of Lemberg and Neudorf Saskatchewan. At the web site above, many of the original documents have been scanned and can be viewed online.

I am descended from and related to a number of the families who settled in this area in the 1890's and early 1900's. I am grateful to Mr. Gent for the assistance that his web pages gave me in locating the gravesites and history of my ancestors and want to offer this in thanks and to help others in their family searches. And thank you to the very friendly people of this area who were invaluable in my family history research.
